

# KHK J SERIES

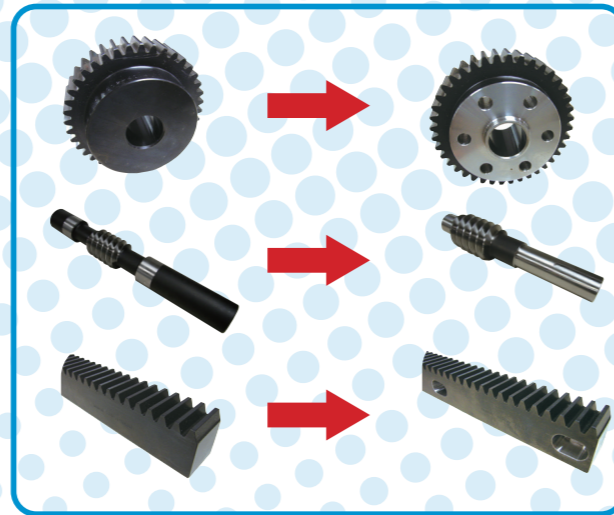

Standard stock gears with KHK specified secondary operations.

KHK specified secondary operations are modifications typically requested by users such as,

- Enlarging the bore
- Add a keyway
- Add tapped hole(2)

Example of Modification

# KHK MODIFIED GEARS

KHK can modify stock gears according to your specification in short lead time.

# 3-DIMENSIONAL CAD MODELS

The KHK website provides full and comprehensive accessibility to specifications and corresponding 3D CAD Models. For further information visit: <https://khkgears.net/new/>

Examples of CAD drawings from KHK's 3D CAD drawing generator.

# KHK STOCK GEARS

INCLUDING MODIFIED

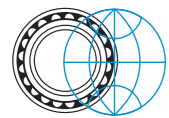

Highest quality Japanese stock gears based on over 80 years manufacturing experience

Made In Japan.

- 30,000 types of standard stock gears
- Always in stock and ready for immediate delivery
- All gears are individually packed

KHK are Japan's leading stock gear manufacturer

## Main features of KHK Stock Gears

- 30,000 types (Extensive choices)
- All gears are available from stock
- No minimum order quantity
- All gears are individually packed
- Gear specifications maintained for 30 years
- Detailed technical information for all gears
- Modified stock gears at low cost & short lead time

Buy Gears Online - RARGEAR - The Online Shop for KHK Gears
